Dear Steve:

We just wanted to take a moment and let you know how pleased we are with the Kyocera CS-5050 KX copy machine that Oxford leased from your company last year. Its reliability, ease of use, and adaptability has resulted in significant time savings for our staff. It is truly a versatile machine, well suited for our purposes.

But, even more important than the quality of the equipment has been the quality of service. From the excellent personal hands-on training provided at installation through the outstanding go-the-extra mile service that you have provided, your efforts have indeed been impressive. As long-time leasers of copiers in the San Antonio area with experience leasing from several other companies, we can say without reservation that Americopy has been the very best in insuring our complete satisfaction. We look forward to a continuing relationship with your company in the future, and wish you the very best of luck in your continued endeavors to provide a quality product, with excellent service in the San Antonio market.

Sincerely

Attn: Steve

While many times you may receive letters of complaint, we would like to compliment your firm on the quality service we have received over the past eight years. Since purchasing the Copystar CS 2121 in March of this year, we have been extremely satisfied with the quality that the copier gives. Thank you for taking the time to work with our needs and wants.

Sincerely,

Dear Mr. Curtis,

Thank you for your superb service! As an independent service company, like Americopy, we know the importance of giving good service at a fair price and building on that reputation.

Your rates are about half what the "manufacturer's" service company charges and we don't get overcharged for parts and other add-ons that run up the cost. You have much better technical knowledge and skills and our copies look like they came from a new machine. Most importantly, you have never hesitated to give us the extra help we need to keep this old machine running well until we can afford a new one.

Finding Americopy has paid off for us in a better image for our paperwork and you have saved us money at the same time. We know we can rely on you so we will be calling ONLY Americopy for our future needs.

Sincerely,

Dear Steve,

It has been several months since you installed our new Copy Star CS-1435 copier, so I thought I would drop you a note and let you know how much we were enjoying it. As you know we were using another copier, which shall remain nameless, that was provided to us by one of the companies we represented. We've been using that copier for almost three years now and finally got fed up with the poor service from both the machine and the dealer's service department.

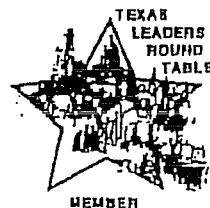

The copier that we had before that was a older MITA, which really spoiled us. Since we have had this new copier it makes me reminiscent of the one we use to have in the way it handles our needs here at the office. It has very reliably done everything that you said it would do and more. My staff here at the office think that I am a very smart person for purchasing it. I guess I will take credit for the purchase of the new copier even though it was your persuasion that eventually made me do it.

I don't think I have seen or used a finer copier that meets the needs of our agency as this new CopyStar. I would highly recommend it to anyone who is tired of the hassles of their copy machine. Please don't hesitate to recommend me to any of your prospective clients to give me a call so that I can inform them as to how pleased we are. Thank you.

Sincerely,
